Stormwater runoff causes flooding & carries pesticides, chemicals, sewage, and other pollutants into rivers & Lake Michigan – our drinking water source. Learn about:

- ❖ why we are experiencing flooding and runoff problems
- ❖ why we are losing wetland areas, natural sponges
- ❖ how do human constructs like parking lots affect runoff

Learn about projects you and your community can do to remedy runoff

- ❖ rain gardens and rain barrels
- ❖ bio-swales for roadways and parking lots

The League of Women Voters is a nonpartisan political organization dedicated to making democracy work through voter education, informed participation in government and issue advocacy.

Funding in part under the Coastal Zone Management Act, by NOAA's office of Ocean and Coastal Resource Management in conjunction with the Illinois Coastal Management Program of the Illinois Department of Natural Resources. The League of Women Voters - Illinois and the League of Women Voters - Lake Michigan Region received a grant from the Illinois Coastal Management Program of the Illinois Department of Natural Resources to research and develop a program on the topic of reducing pollution of Lake Michigan - the source of our drinking water - and reducing the danger and damage caused by flooding. The League of Women Voters of Milwaukee County is a member of the LWV-Lake Michigan Region.
